### Black rhino collaring experience

Help secure the future of this African icon by sponsoring the collaring of a rhino. This allows us to track the rhino and ensure we know their whereabouts at all times to prevent poaching.

---------	-----------	-----------	-----------

The experience includes vet and helicopter fees, witnessing the darting, and 2 nights for 2 people at Samara's Karoo Lodge, including game drives.

### Telemetry tracking device

Used to locate the rhinos by picking up the radio signal from their collar, this forms an integral part of our anti-poaching efforts.

### CyberTracker Juno SB with GPS

The CyberTracker is a remarkable piece of software that allows trackers to collect geo-referenced data in the field. It is particularly helpful for anti-poaching.

### Sponsor a tracker

The award-winning Tracker Academy is based at Samara. Every year it puts 16 young underprivileged individuals through a rigorous 1-year course in tracking, conservation and life skills. So far 94% of course graduates have found permanent employment. The aim is to train and empower the conservation leaders of tomorrow.

R70 000	GBP 3 955	USD 6 655	EUR 4 820

Your sponsorship would pay for a tracker's education, food and living costs for 1 year, as well as provide a young individual with greater life prospects and higher earning potential.
